Business Recommendation Letter

To whom it may concern,

I confirm that CONSMAR d.o.o. (Rijeka) was employed as the main Electrical subcontractor working under Viktor Lenac Shipyard in Rijeka, Croatia, for the DP2 Conversion of the Prysmian Group "Cable Enterprise", from June 2014 to March 2015.

It has been a privilege and pleasure working with CONSMAR as their indirect client during my tenure as Prysmian Groups Lead project Manager. The high standard electrical work completed by CONSMAR throughout the project was instrumental in the effective technical execution of the conversion. They contributed significantly to the success of the project providing excellent reliable quality for our offshore cable installation vessel, allowing her to meet the demands expected of a tough offshore market.

I'm sure CONSMARs participation within any organisation or future projects will be of great benefit and I wholeheartedly recommend their services to the wider Industry.
